American Cyber Partners with InfoReliance on NETCOM Contract

CLIFTON, VA – (April 2017) American Cyber, teaming with InfoReliance, scored another win under the NETCOM HBSSaaS Contract. American Cyber will provide its expertise to InfoReliance, the prime on this contract.

American Cyber will aid NETCOM HBSSaaS in monitoring, detecting, and countering attacks against DoD networks. As a leading small company, American Cyber's expansion into NETCOM HBSSaaS will further enhance its reputation as an excellent and outstanding service provider for the DoD.

"Netcom HBSSaaS provides next generation endpoint management and security across the Army enterprise while transitioning ownership, sustainment, technical refresh, configuration, provisioning, and operation and maintenance of HBSS hardware and software to an industry-managed service model," explains Gary Winkler, American Cyber President. "We are excited to share our skills and talented team in this effort."
