American Cyber Announces GSA Schedule Contract Award

CLIFTON, VA – American Cyber, a leading provider of specialized C4ISR and cyber services for the Government, announced today that it has been awarded a GSA Professional Services Schedule (PSS) Contract effective January 4, 2019. Having this contract allows American Cyber the ability to easily offer their preeminent, integrated technology solutions to the federal government. American Cyber’s GSA contract award is a direct result of a complex process in which the General Services Administration evaluated their professional capabilities, organizational structure, performance history, and customer satisfaction, among other criteria. As a result, American Cyber is qualified to perform work directly for federal government entities.

American Cyber is listed under the GSA PSS under contract number 47QRAA19D0041. To further expedite government purchases, American Cyber has made its services available on GSA Advantage!, the federal government’s electronic ordering system.

“We are very excited with this contract award as it accentuates our continuing commitment to optimally serve the U.S. Army, DoD and federal agency information technology and cyber missions.” said Gary Winkler, President of American Cyber. “We’re confident that this GSA Schedule will broaden our federal market.”

About American Cyber

American Cyber is an award-winning Women-Owned Small Business supporting U.S. Government projects across the globe by identifying, implementing, and integrating leading-edge technology solutions. American Cyber serves customers with a quality and process-based focus per the company's International Standard Organization (ISO) Certifications in Quality Management, Information Technology Services Management, and Information Security Management, accompanied by a CMMI Level 3 rating for Services. American Cyber's awards include Inc. 5000 designation, Virginia Chamber of Commerce's "Fantastic 50", Washington Technology's "Fast 50", SmartCEO Magazine's GovStar Awards for Best Emerging Company and Protégé of the Year, and the DoD Nunn-Perry Award.
